REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The present invention distinguished over the prior art for a combination of reasons. It requires the selection of a transmission media based upon a data rate comparison. As applicant argues in his brief on page 5 and 6 this distinguishes from the prior art in that the present invent differs in that it requires a comparison of the data rate of the connections. This inherently requires the claimed invention to measure the data rate of the connections and compare the results, as noted by the applicant in the summary of claimed invention the appeal brief on page 2 and 3. Additionally this requires that the present invention have multiple connections from which to choose from. Also the application of this invention is limited to scope of updating software on a computer system. Therefore for a combination of reason discussed above in addition other reason not explicitly discussed the present invention distinguishes over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
